

and an increase in Supply
of all its by-products

When the price of a complement in production increase, (for example: an increase in the price of gasoline)

Price of gasoline

Price increase  Quantity Supplied of gasoline increase

There will be an increase in
Quantity Supplied of gasoline

Movement
along

Ashift

When the price of a complement in production increase, (for example: an increase in the price of gasoline)

There will be an increase in Quantity Supplied of gasoline

Movement along

Price increase → Quantity Supplied of gasoline increase

and an increase in Supply of all its by-products

Law of Supply

Price
