800

Income increase  
by: 1000

% of the extra income spent is called the  
Marginal Propensity to Consume: MPC

8,600

9,500

MPC = 60%

MPC = 77%

MPC = 80%

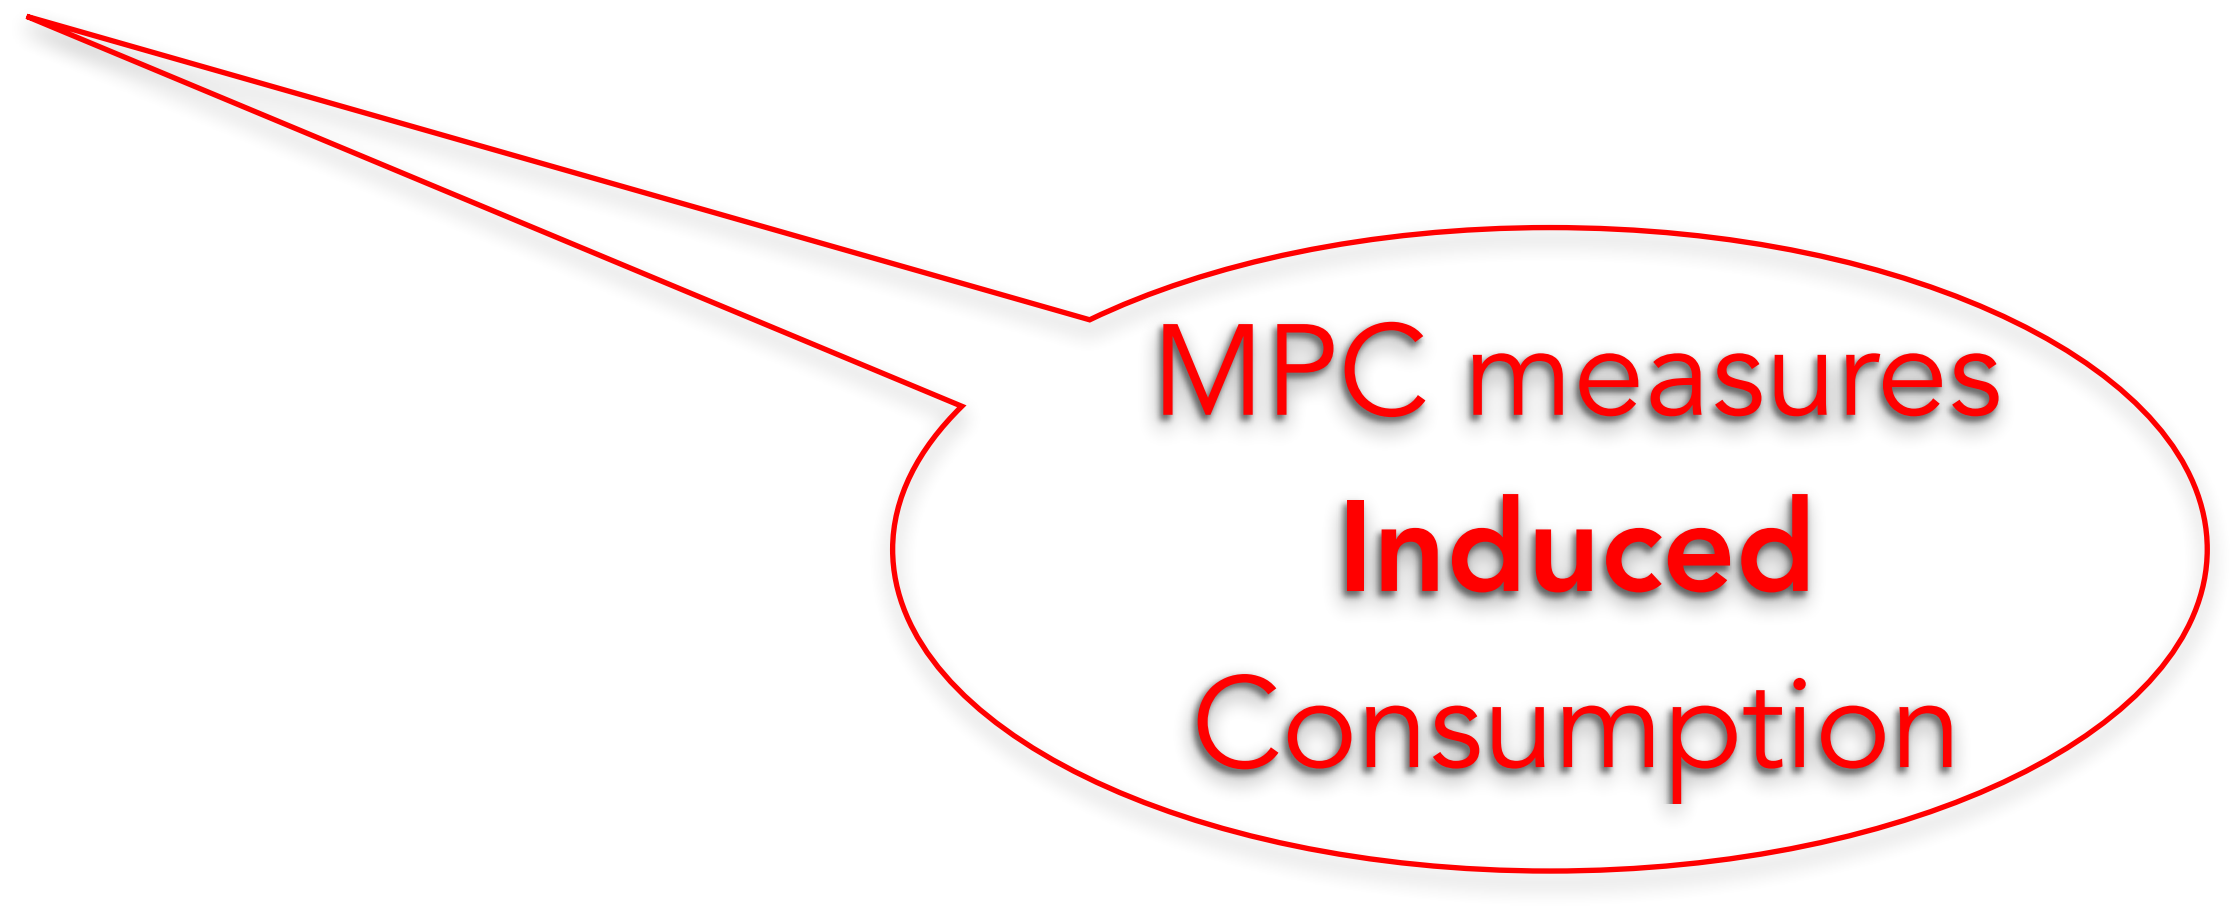

A black-outlined speech bubble with a tail pointing to the right. Inside the bubble, the text "An increase in income 'induces' and increase in consumption" is written in a black, sans-serif font. The word "induces" is highlighted in red.

An increase in  
income "induces"  
and increase in  
consumption

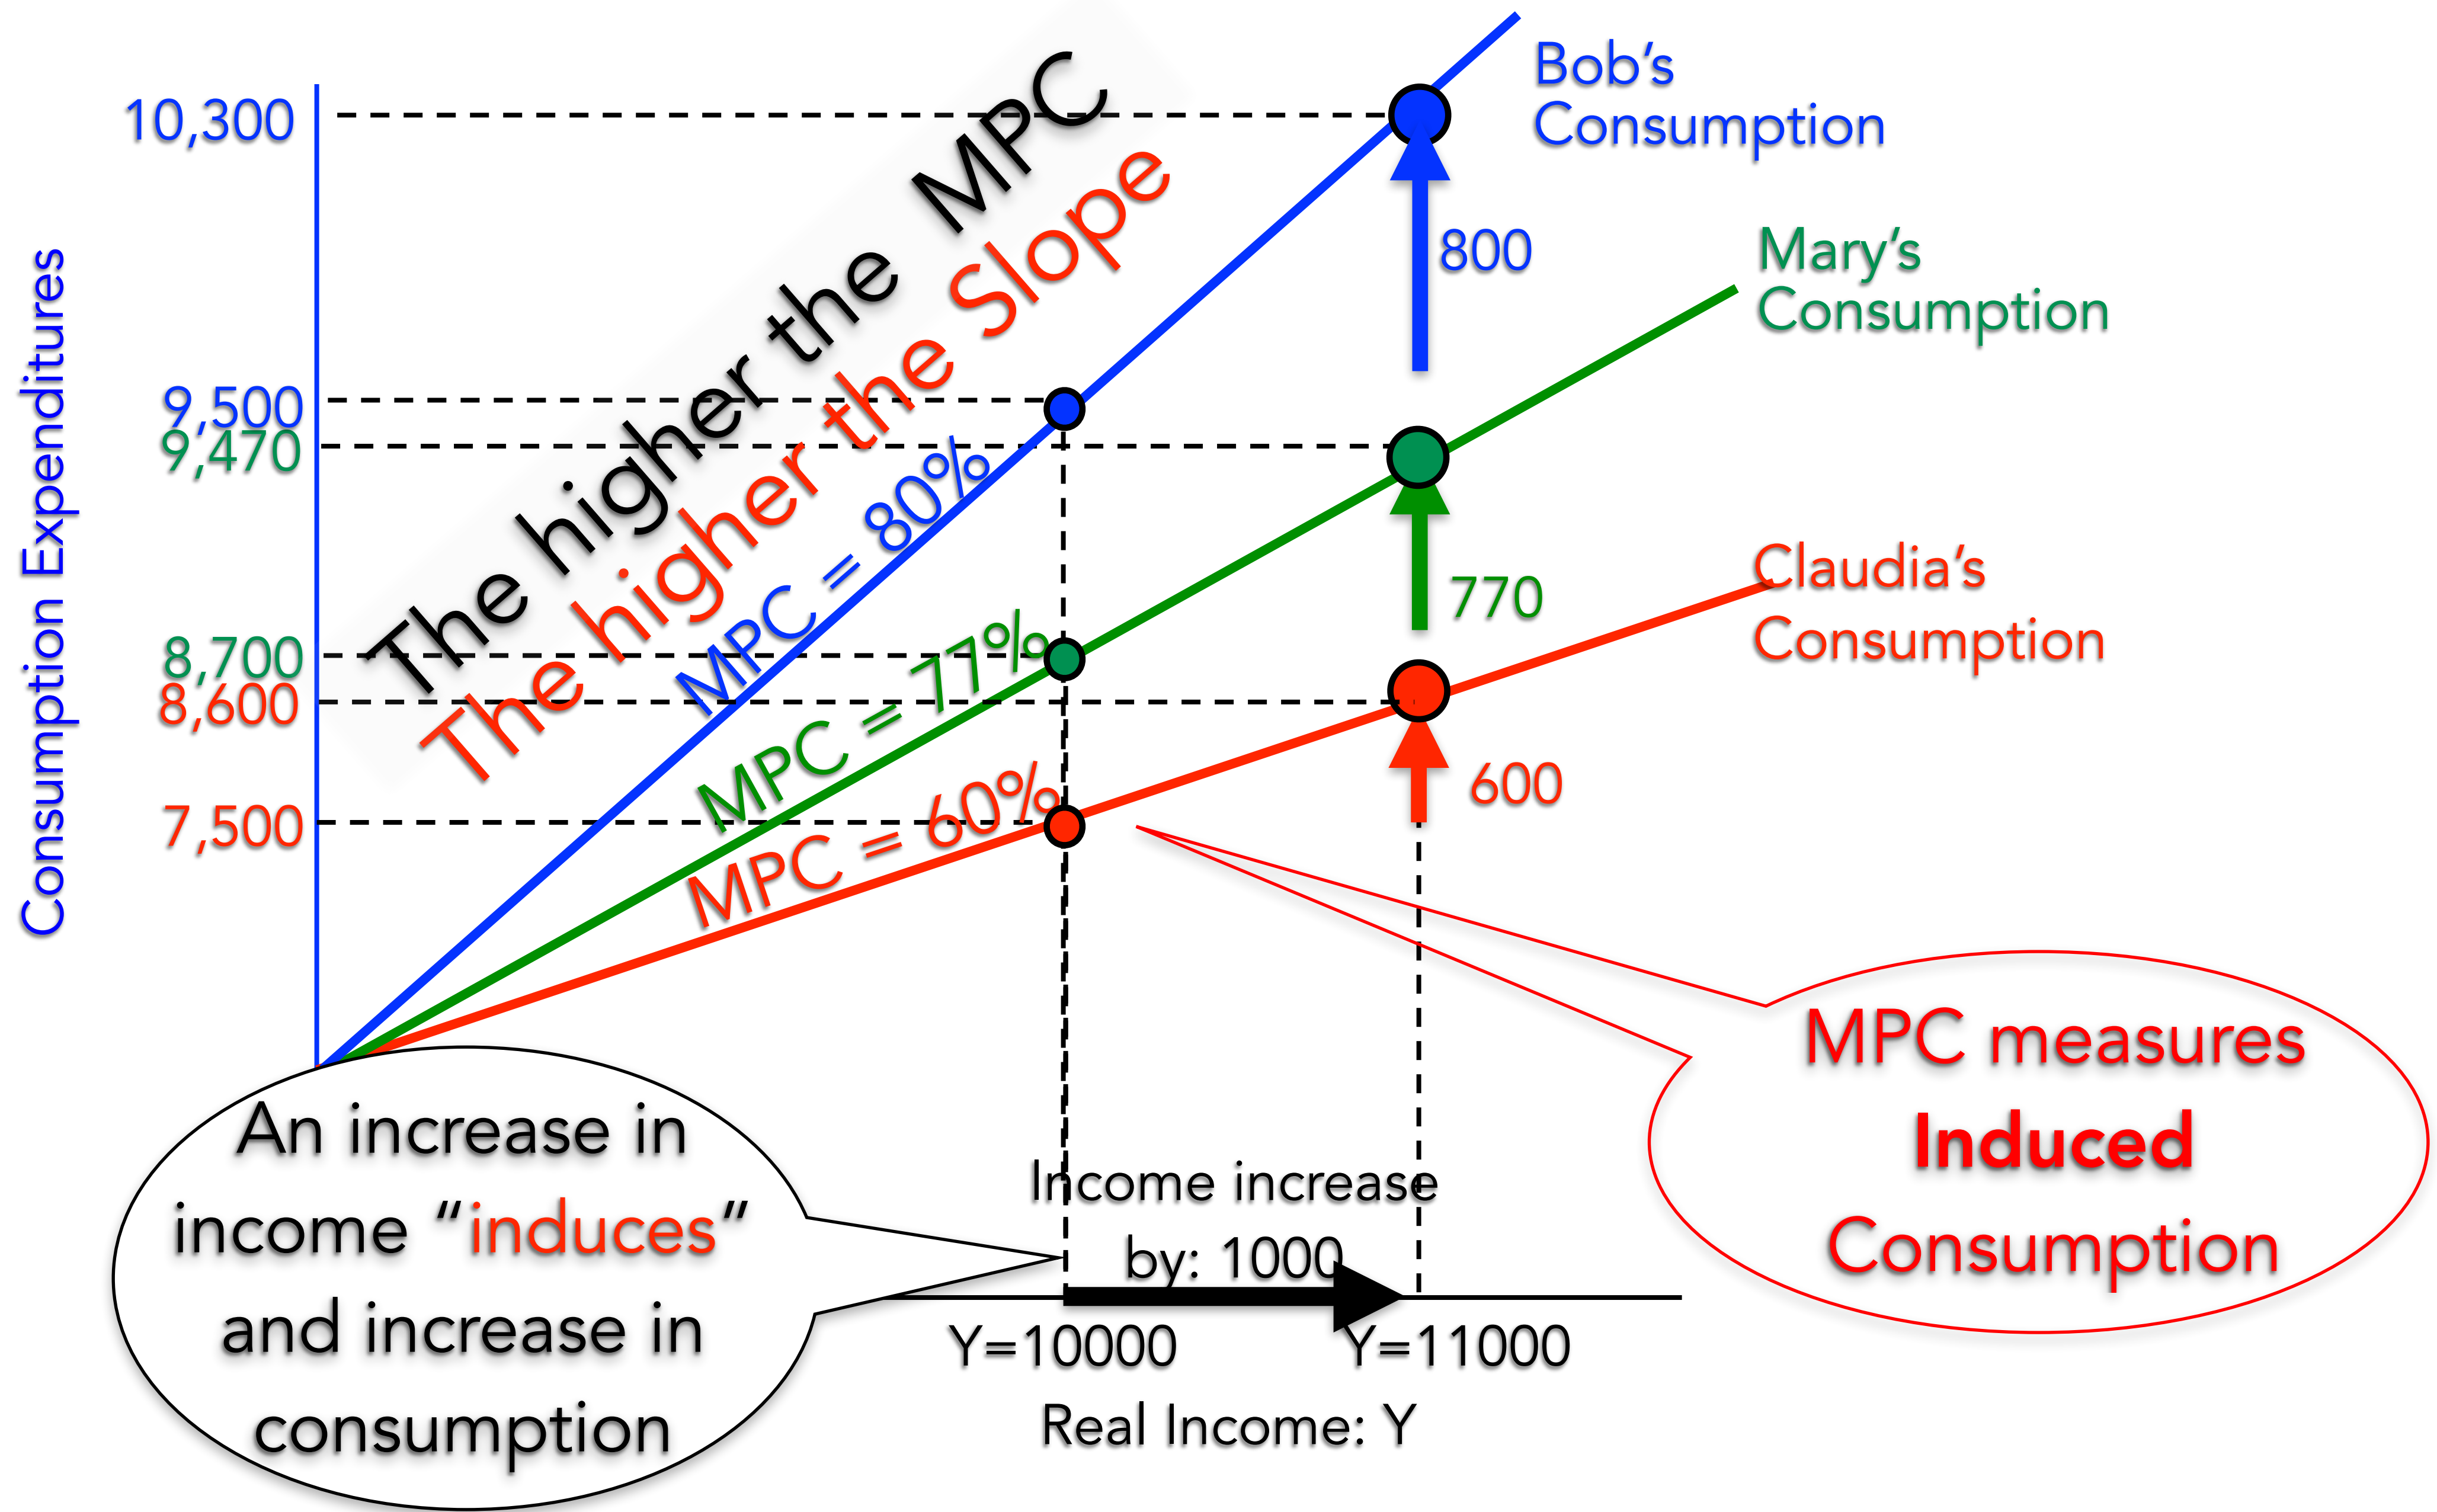

MPC measures  
**Induced**  
Consumption

The higher the Slope

The higher the MPC
