

CP: Quality Bias

Because the basket is **fixed**, the CPI does not
account for better **quality** which provide
better value per dollar spent

A black Dell computer monitor is shown from a front-facing perspective. The screen is a solid blue color, and the text "\$700" is centered on it in a large, white, sans-serif font. The Dell logo is visible on the bottom bezel of the monitor. In front of the monitor is a black keyboard and a black mouse, both connected to the computer system. The entire setup is on a white background.

\$700

\$700

A woven basket with a dark interior. The text "One Computer" is written in white inside the basket.
