

**Consumers May Win or Lose depending
on which area is larger...**

600

3,900

2,200

A red right-angled triangle is positioned on the left side of the image, with its right angle at the top-left corner. The triangle's hypotenuse extends from the top-left towards the bottom-right. Inside the triangle, the text "CS at Equilibrium" is written in white. The text is arranged in two lines: "CS at" on the top line and "Equilibrium" on the bottom line. The font is a clean, sans-serif typeface. The triangle is outlined with a thin black border.

CS at
Equilibrium

$$q^s = 300$$

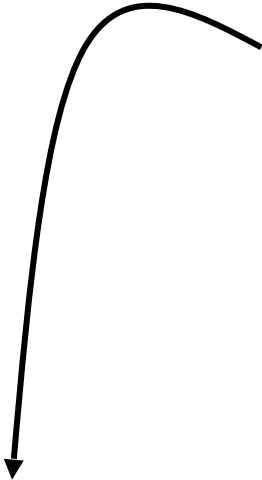

CS after
ceiling
is
imposed

Consumer surplus gained

Consumer surplus lost

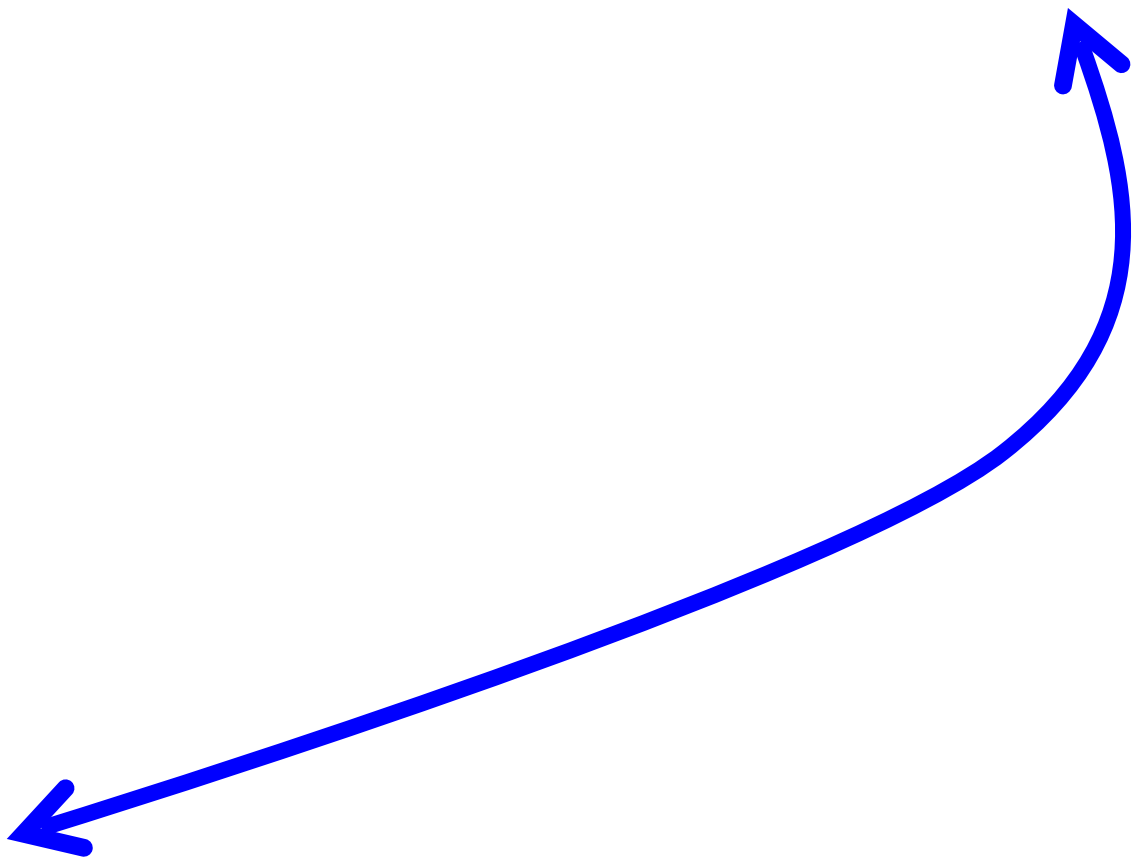

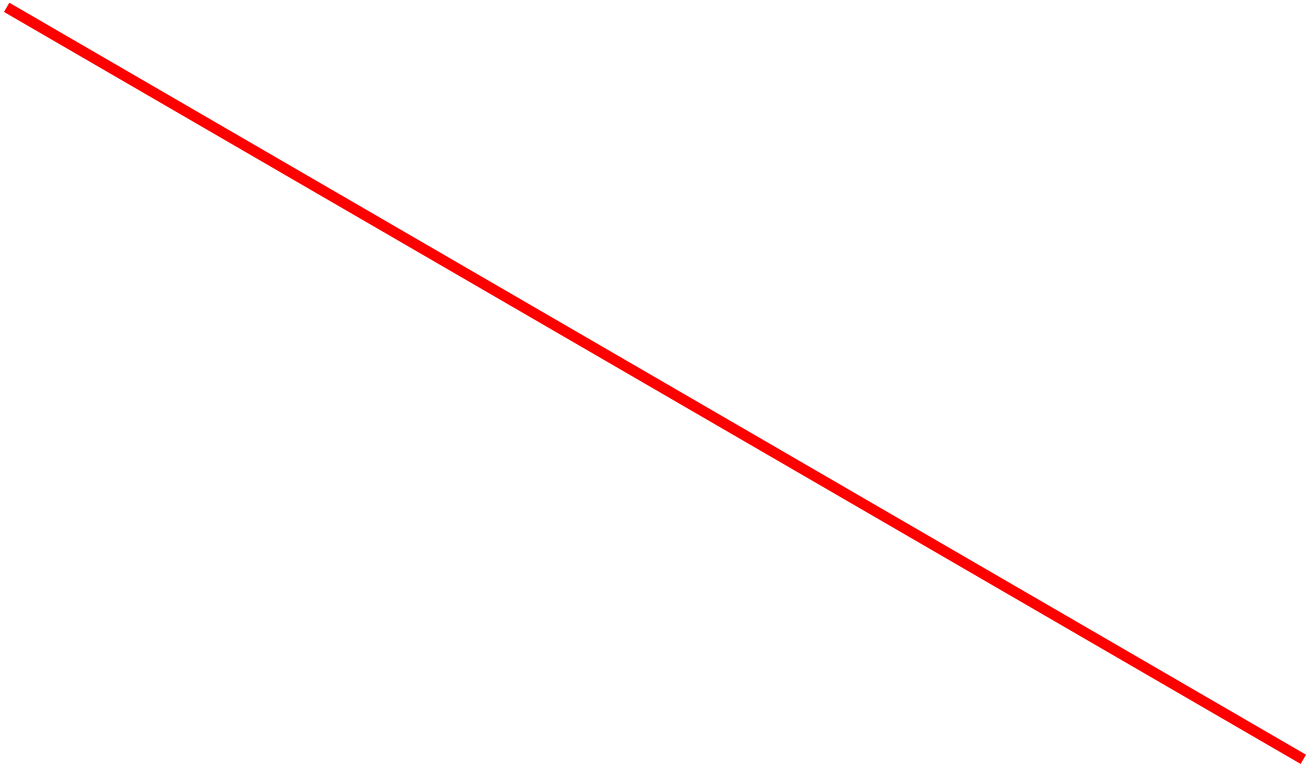

$$q^d = 900$$

CS: Area below Demand above the Price the consumer pays

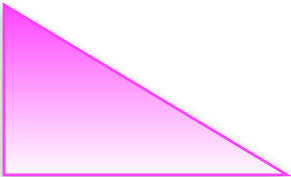

**Only 300 units are available
for rent now**

Consumers May Win or Lose depending on which area is larger...

CS: Area **below** Demand above the Price the consumer pays
