

How much do you “value” goods?

◆ If you are **willing to pay** (part with) \$30 to get a shirt, we conclude that the shirt's “**value**” to you is equal (or higher) than keeping the \$30

◆ You “**value**” the shirt at \$30 because you prefer the shirt to all the things you could have purchased with \$30...

How much do you “value” goods?
