

Because these goods and services were not paid for during the pandemic that production was not added as GDP

Before the Pandemic Claudia:

Ate all her meals out

Paid a gardener

Paid to have her hair done

Paid a house cleaning service

Paid to have her dogs walked

Paid to have her bike serviced

Paid to have her dogs groomed

Paid for Bikram Yoga classes

During the "stay home order":

- She cooked all her meals
- She cut the grass
- She cut and color her hair
- She cleaned her house
- She walked her dogs
- She fixed her own bicycle
- She groomed her dogs
- She did yoga in her patio

Before:
All that production
was added into
GDP

After:

**All that production
was **NOT** added
into GDP**

Because these goods and services were not **paid for** during the pandemic that production was not added as GDP
