U.S. GDP 1930 - Present

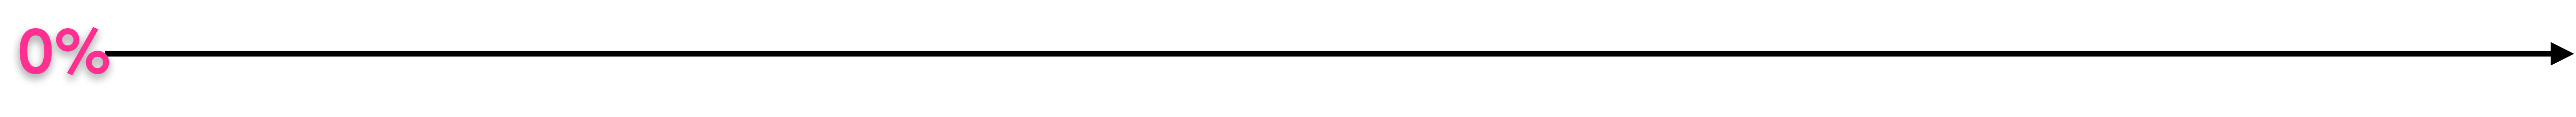

A blue speech bubble with a white background and a blue outline. The bubble has a tail pointing towards the bottom left. Inside the bubble, the text "Most years U.S. produced more than the previous year" is written in black, with the word "more" highlighted in blue.

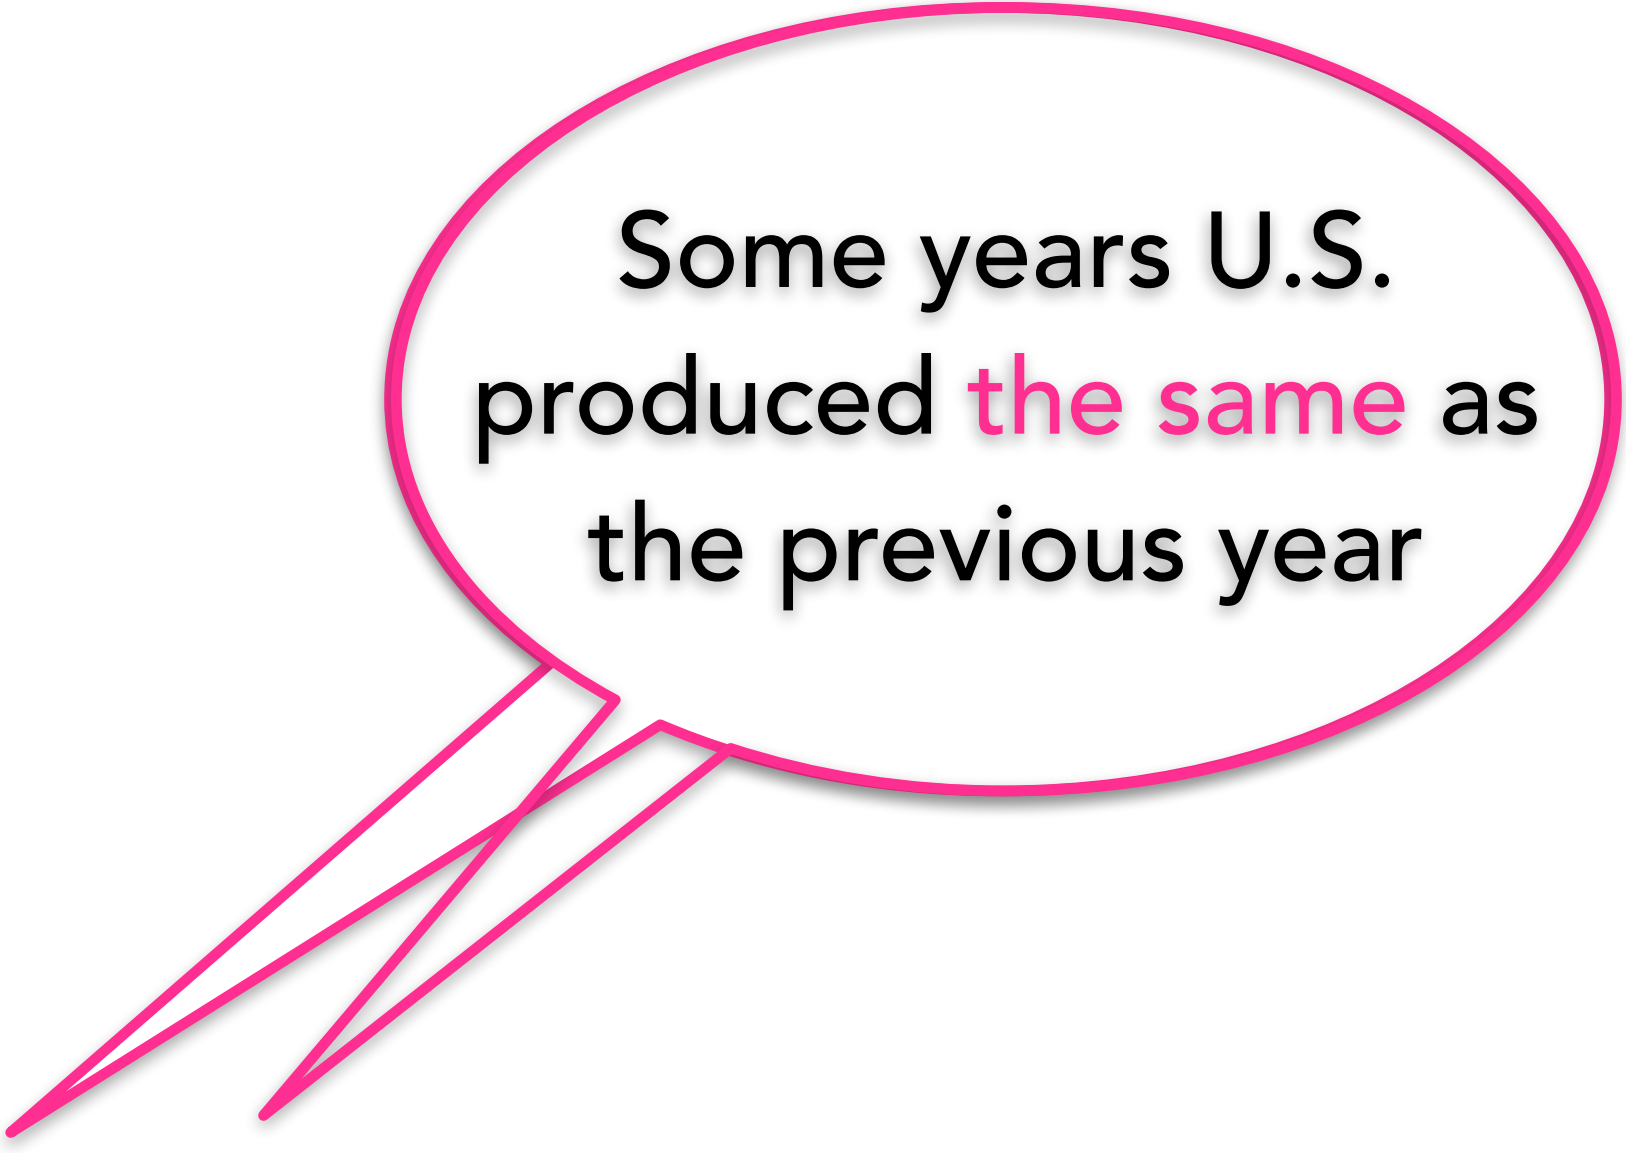

Most years U.S.
produced **more** than the
previous year

1930

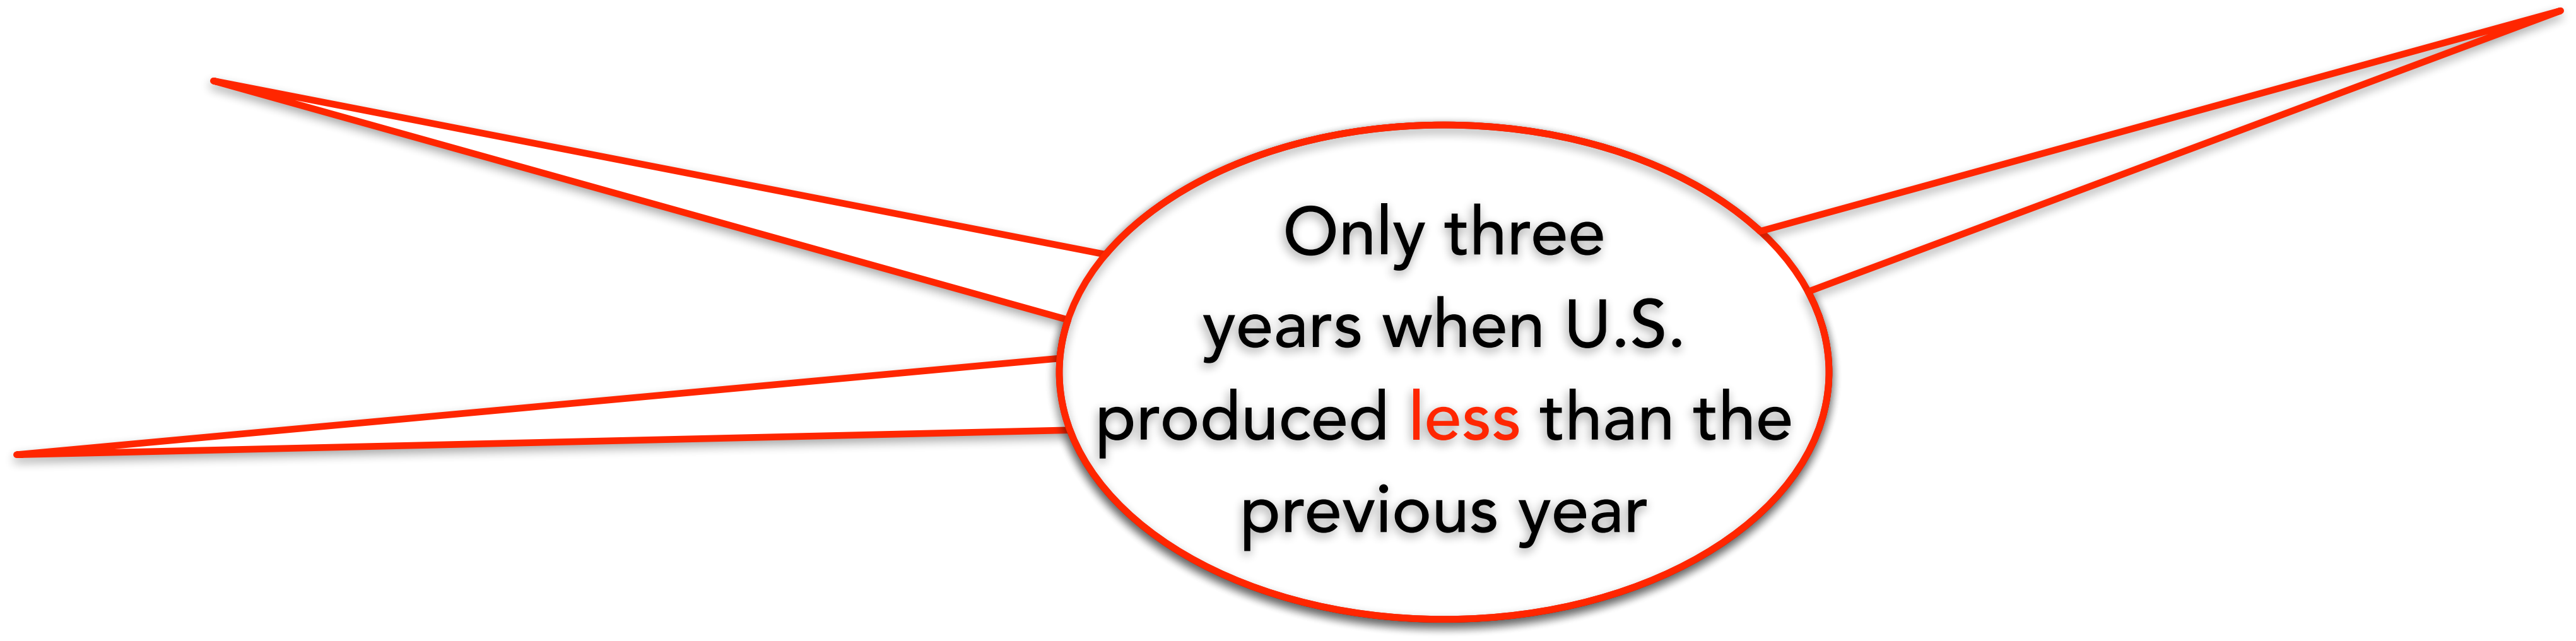

Present

0% **NO Change in Production** →

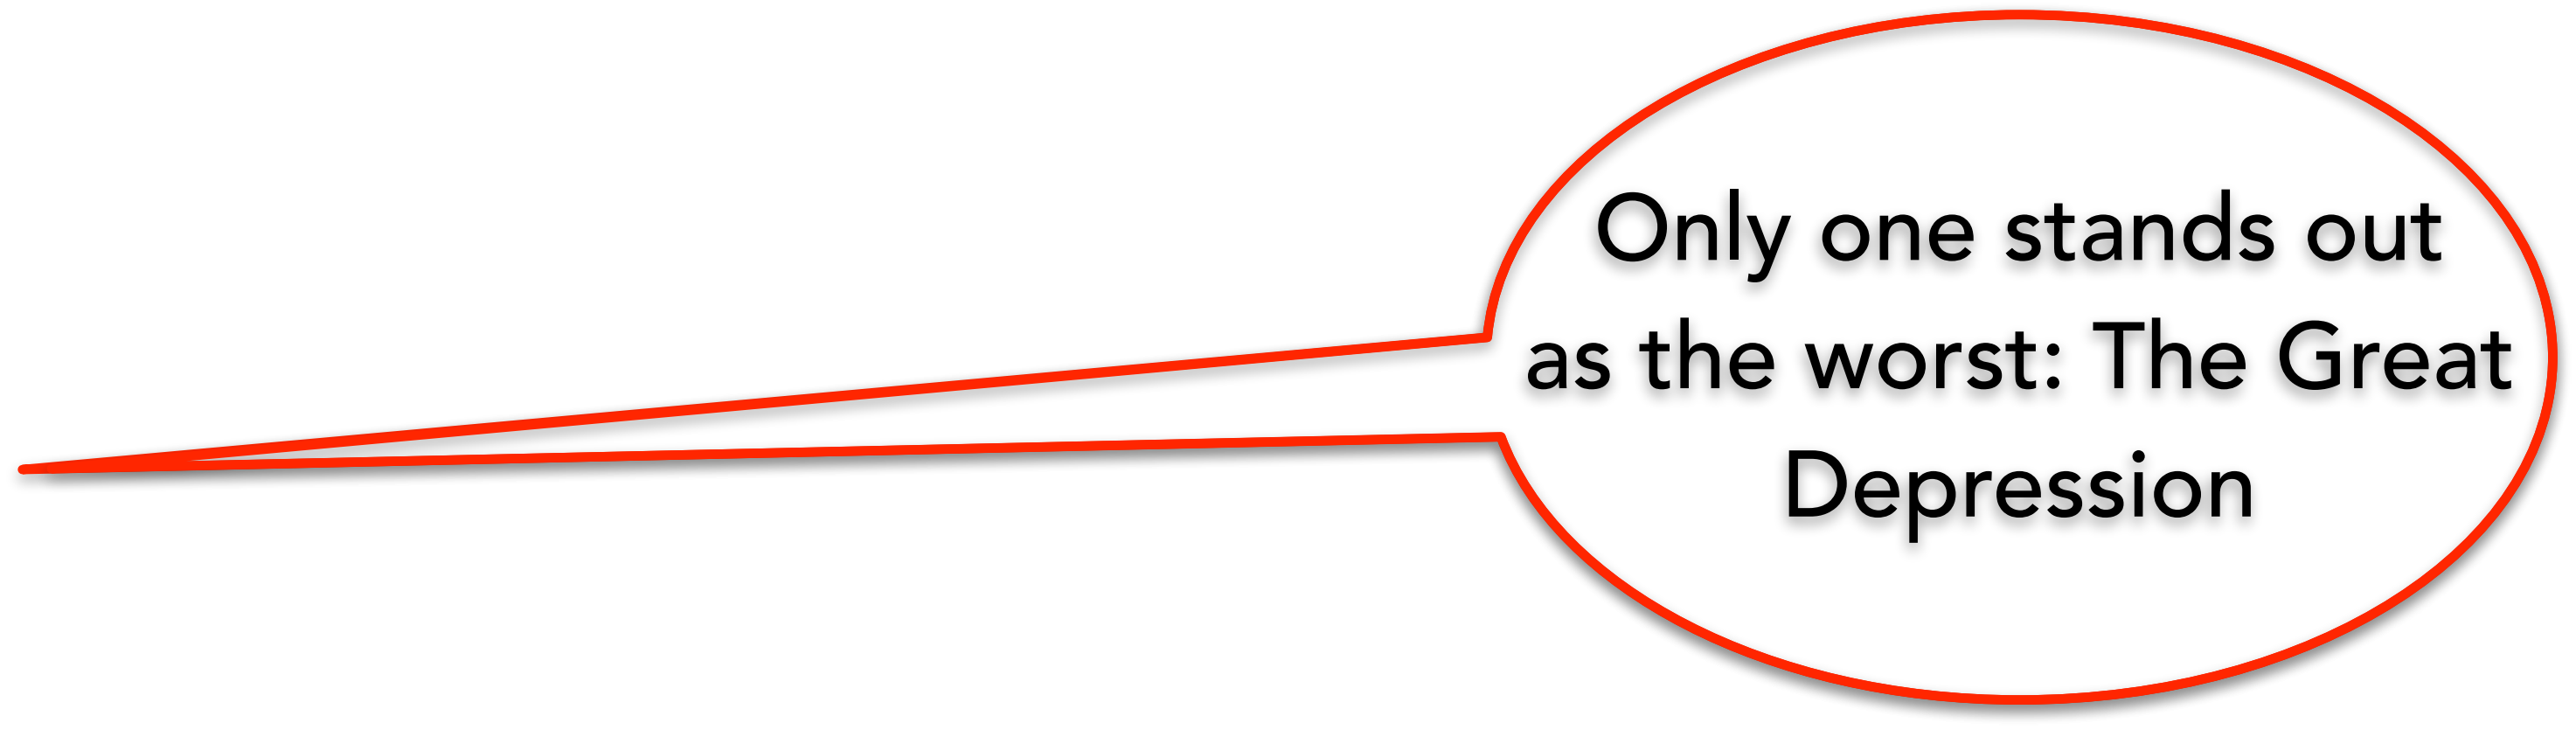

Some years U.S.
produced **the same** as
the previous year

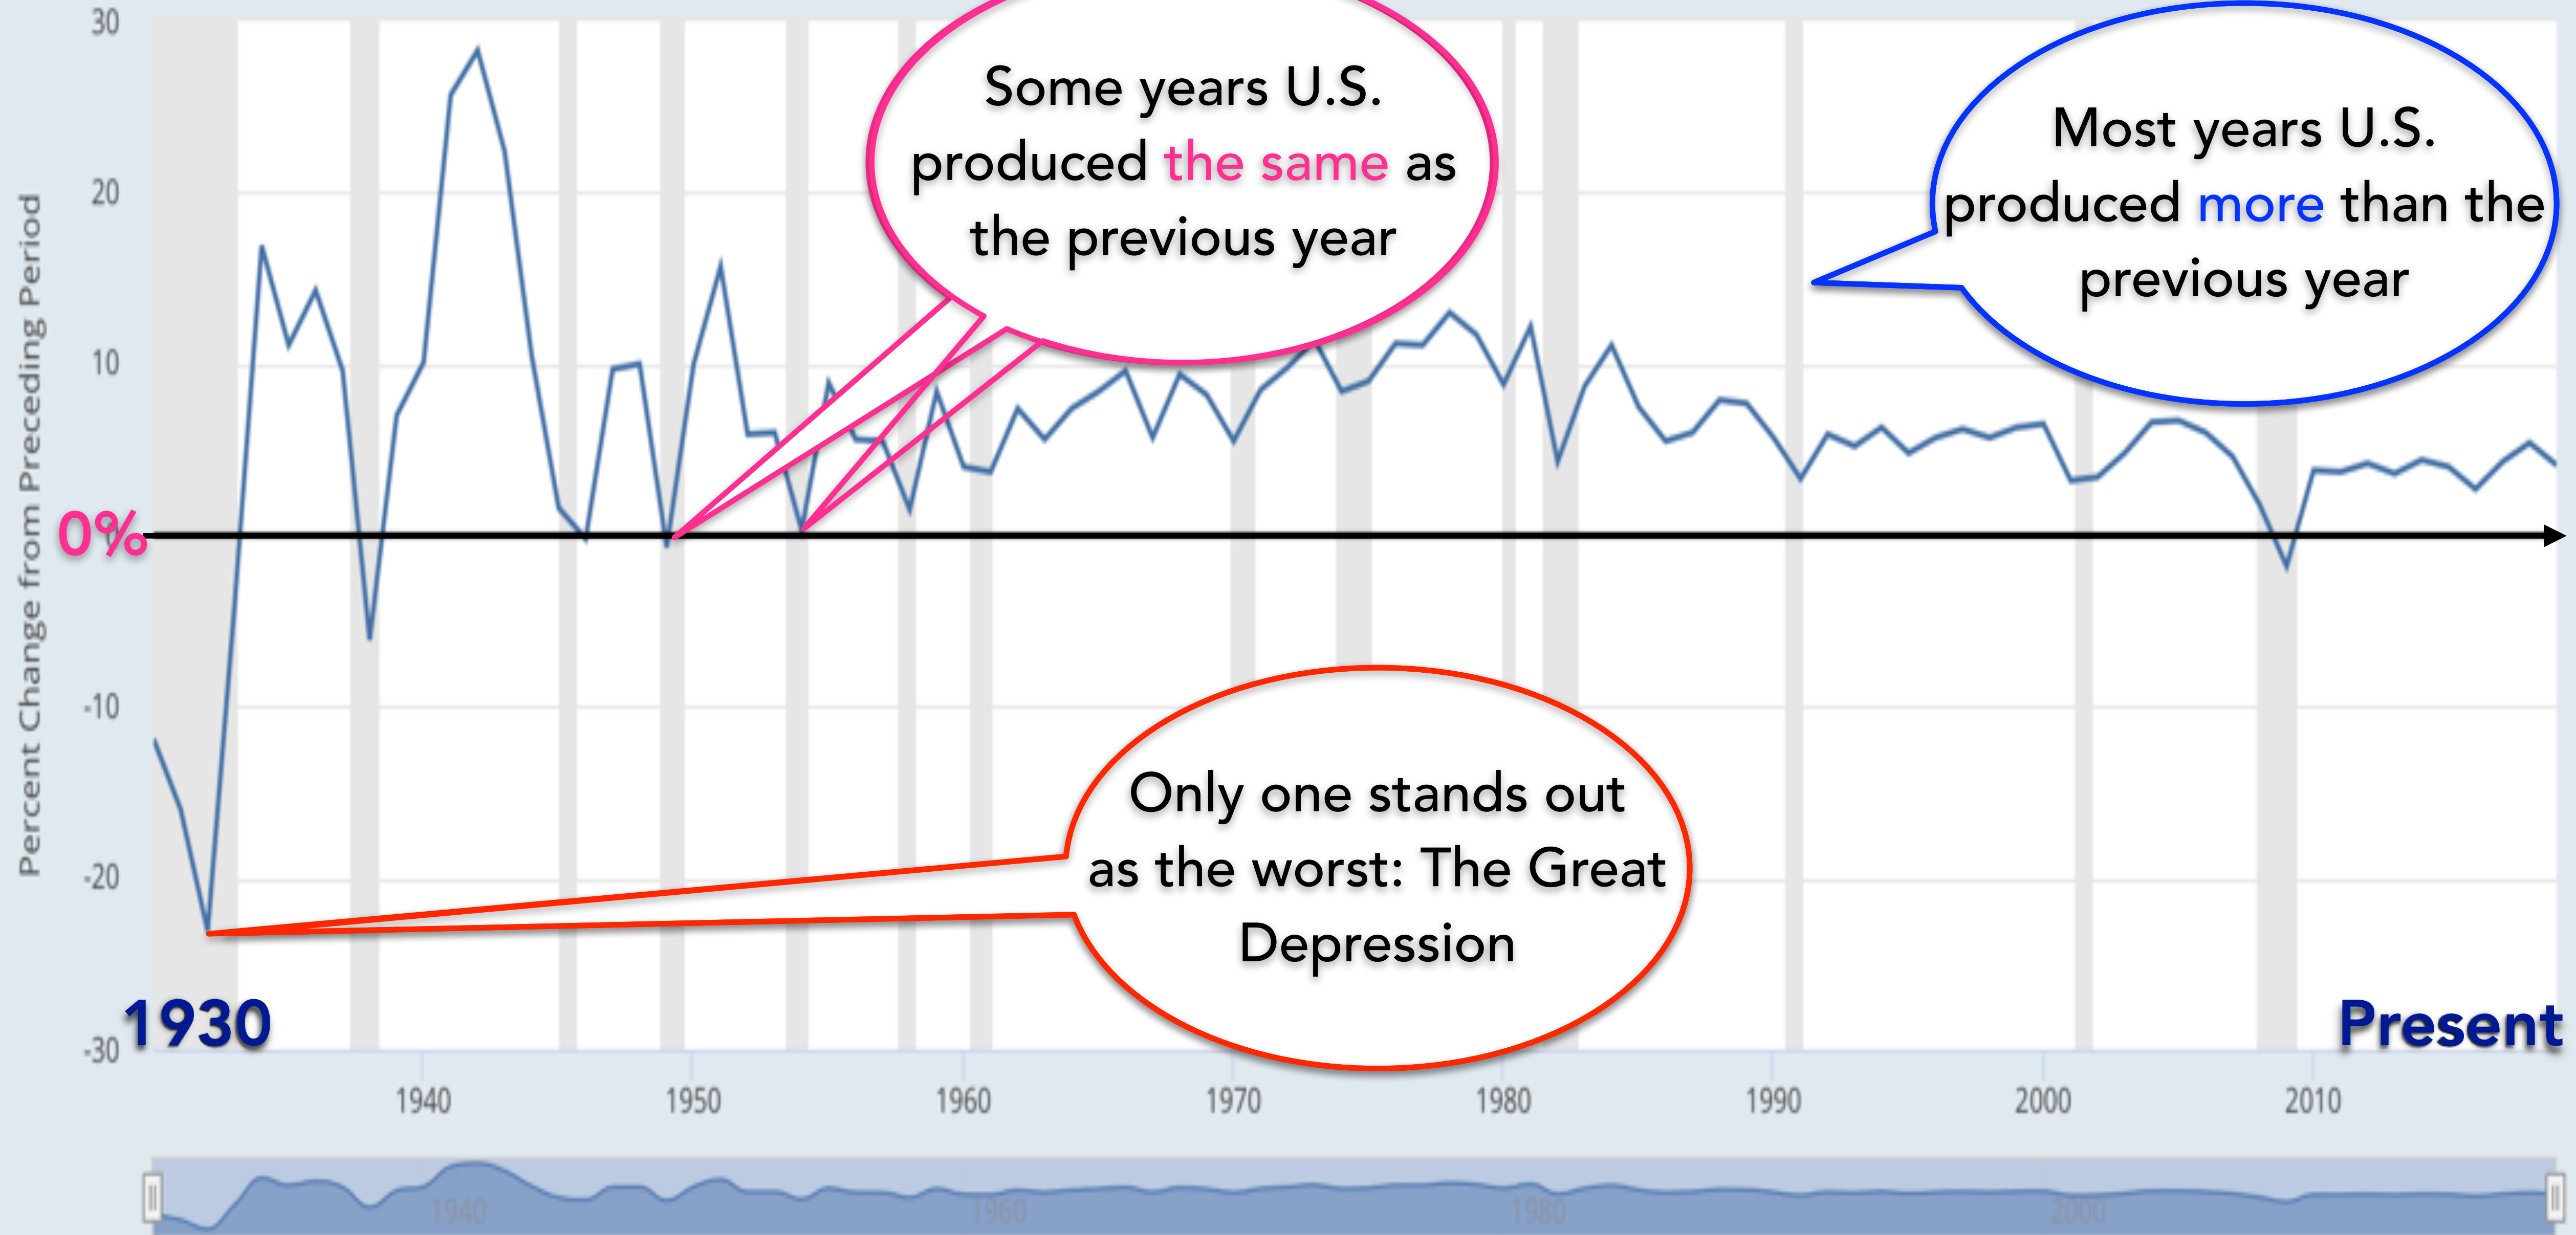

Only three
years when U.S.
produced **less** than the
previous year

A red speech bubble with a long tail pointing towards the left. The bubble is oval-shaped and has a thick red border. Inside the bubble, the text is written in a bold, black, sans-serif font.

Only one stands out
as the worst: The Great
Depression

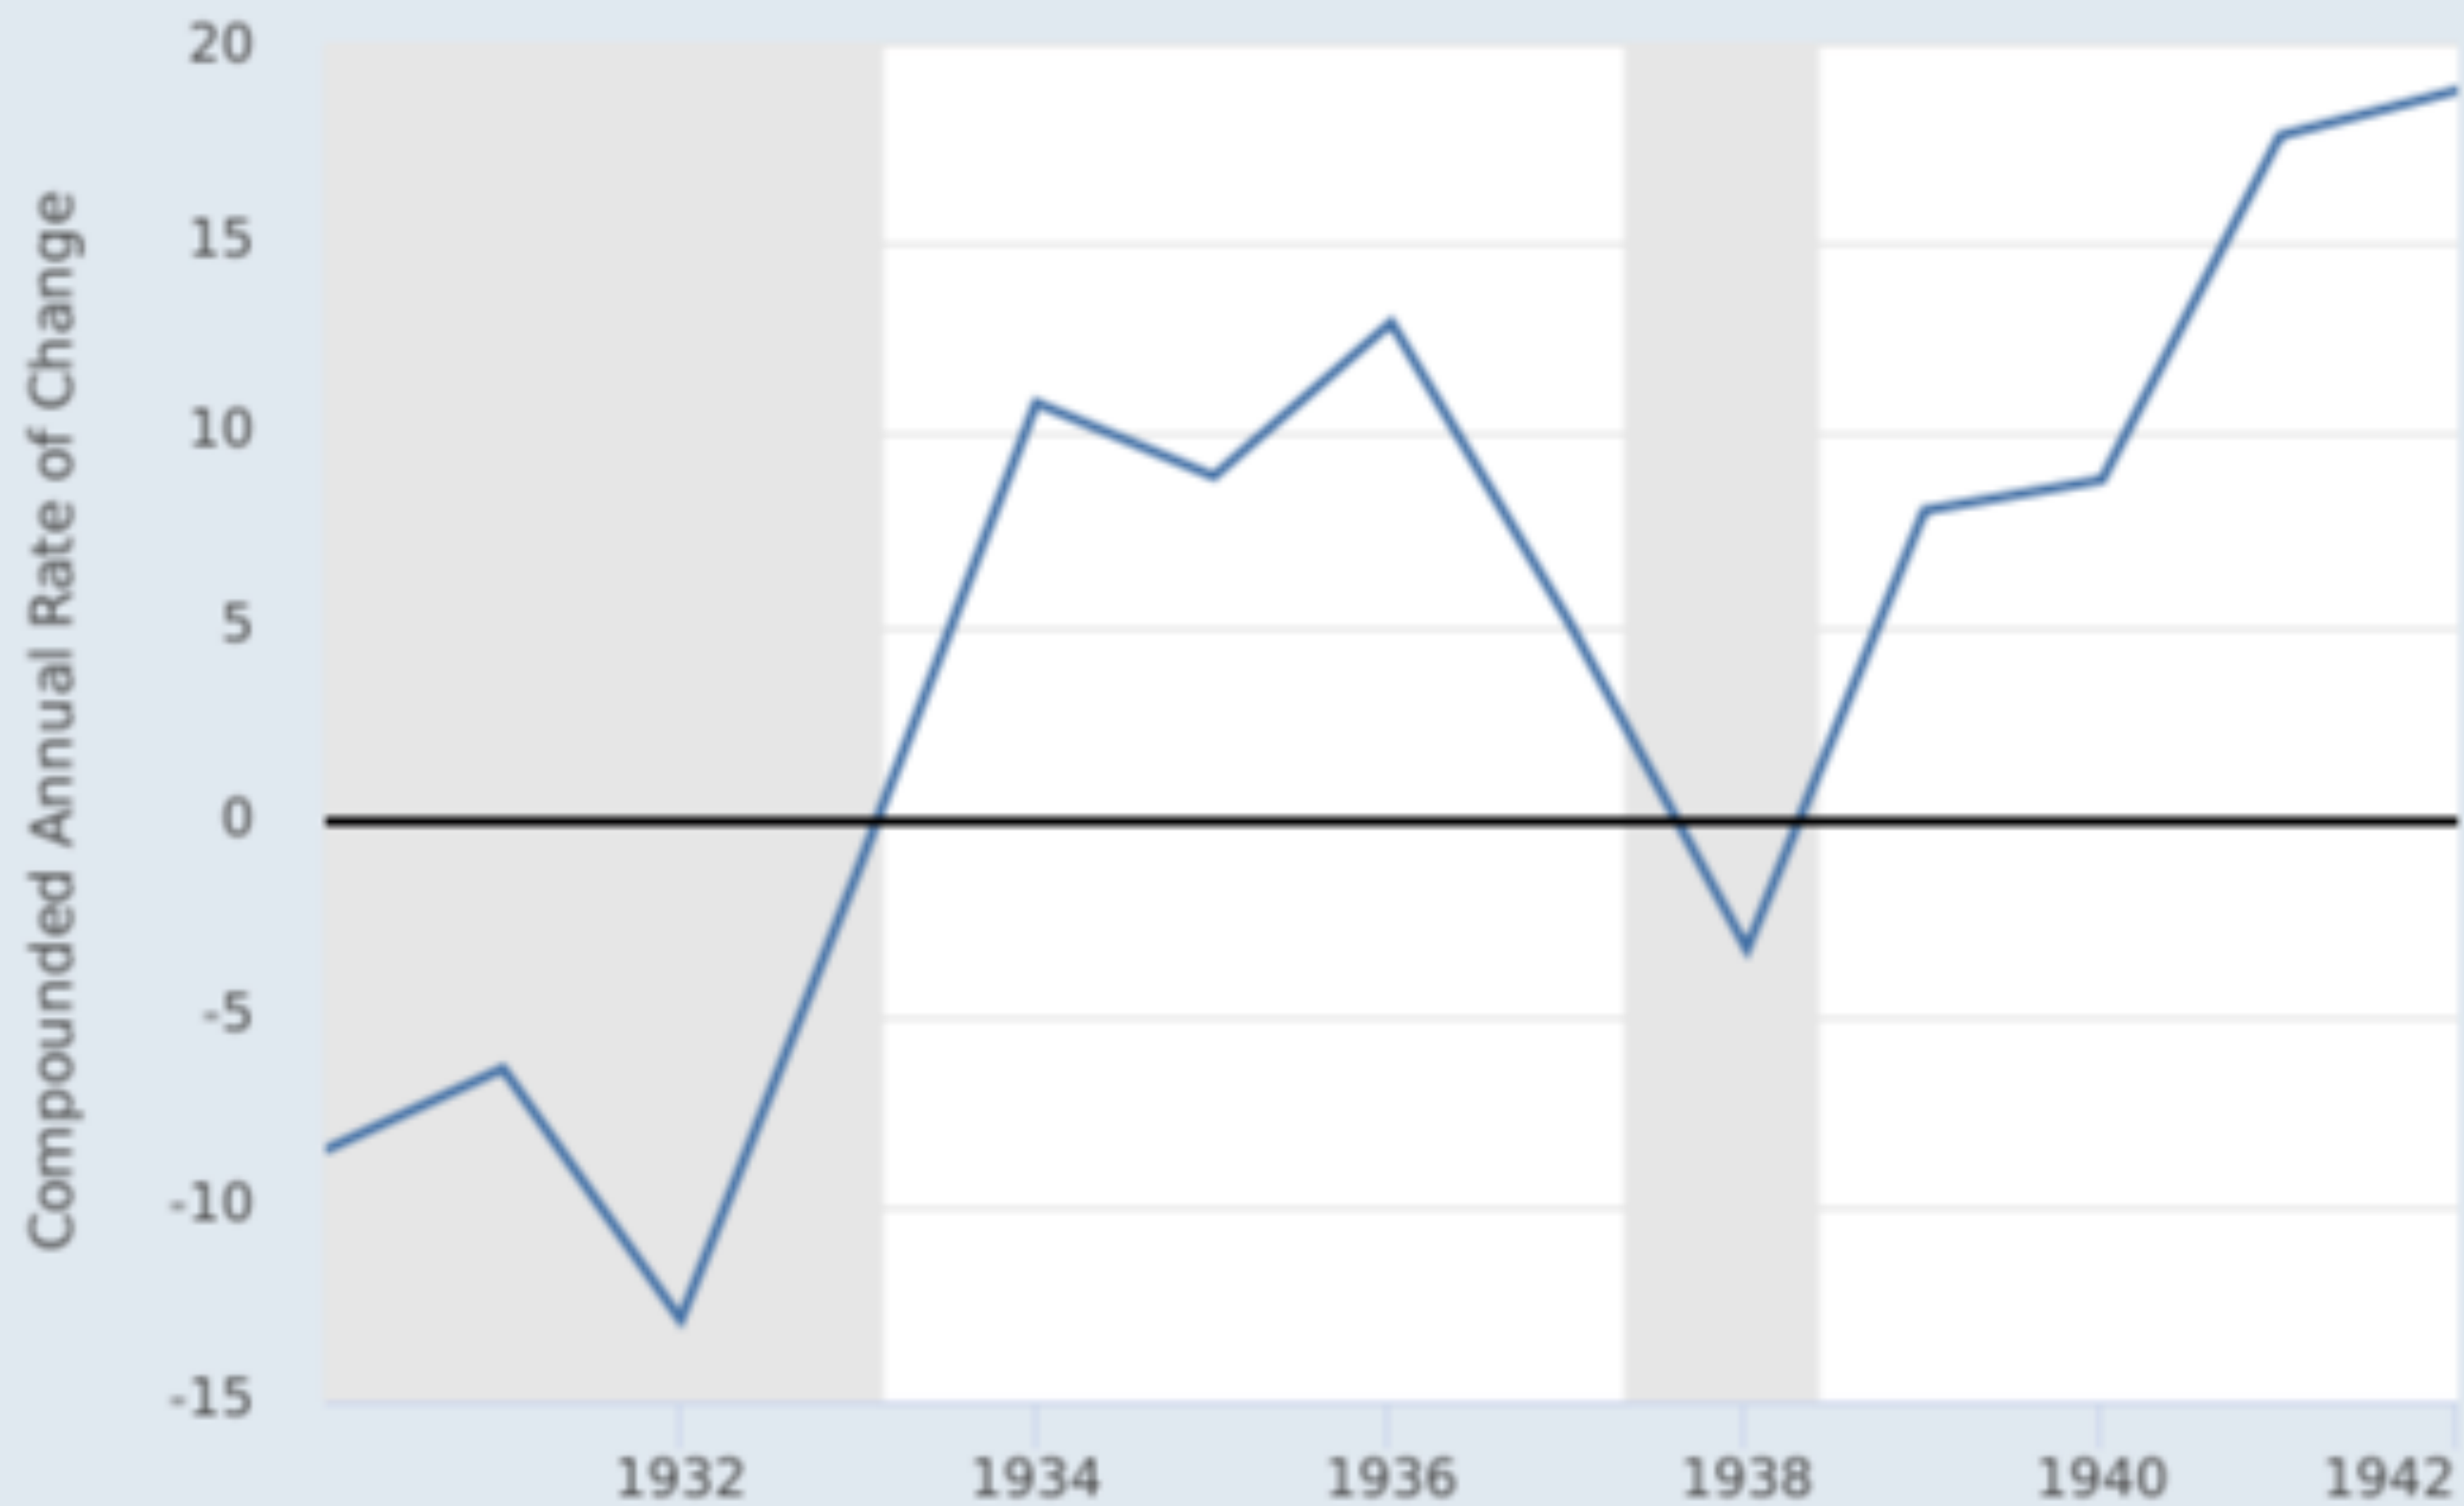

U.S. GDP 1930 - Present

Shaded areas indicate U.S. recessions.*
