

Plotting unemployment and inflation

For each year, we have two measurements: the
unemployment rate and the inflation rate.

If we plot the **inflation** rate and the **unemployment** rate for each year, we would get a “cloud” of points that looks like this:

Plotting Unemployment and Inflation

For each year, we have two measurements: the **unemployment** rate and the **inflation** rate.

If we plot the **inflation** rate and the **unemployment** rate for each year, we would get a “cloud” of points that looks like this:
