

“Cutting the top **corporate** tax rate from 35% to 20% will cause **jobs** to start pouring into our country, as companies start competing for American labor and as **wages** start going up at levels that you haven't seen in many years. The biggest winners will be the everyday American workers”

President Trump

A decrease in the corporate tax is NOT tied directly to the purchase of a capital good: Firms get the tax credit even if they do not increase investment

Decreasing corporate tax rates  
is **not** an effective incentive to  
investment
