

Output produced by 1 worker =
Hours worked x Output per hour

Output produced by **all** workers =
Hours worked x **Labor Productivity** x
**Number of workers in the Labor
Force**

Output produced by 1 worker =
Hours worked x Labor Productivity

Labor Productivity

Output produced by **1** worker =
Hours worked x **Output per hour**

Labor Productivity

Output produced by **1** worker =
Hours worked x **Labor Productivity**

Output produced by **all** workers =
Hours worked x **Labor Productivity** x
**Number of workers in the Labor
Force**

Output produced by all workers = Hours worked x
Labor Productivity x The Labor Force
