

If the Government wants to close a recessionary gap, the government can
Increase Spending or Decrease Taxes

A red speech bubble with a black outline and a drop shadow, pointing towards the top right. Inside the bubble, the text "Either the Government buys more goods and services" is displayed. The word "Government" is highlighted in red, while the other words are in black.

Either the
Government buys more
goods and services

A blue speech bubble with a tail pointing towards the top-left corner. Inside the bubble, the text "Or it puts money in our pockets for us to buy more goods and services" is written in blue font. The words "Or it" and "goods and services" are in black, while "puts", "money", "in our pockets", "for us to buy more", and "goods and services" are in blue.

Or it puts
money in our pockets
for us to buy more
goods and services

Are these two alternatives **equally** effective?

If the Government wants to close a recessionary gap, the government can **Increase Spending** or **Decrease Taxes**

Either the **Government buys more** goods and services

Or it **puts** money in our pockets for us to **buy more** goods and services

Are these two alternatives **equally** effective?
