

Elasticity **does not change** along a **Unit**

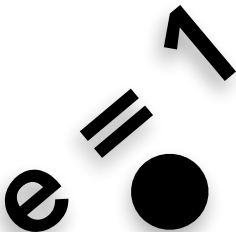

Elastic Supply

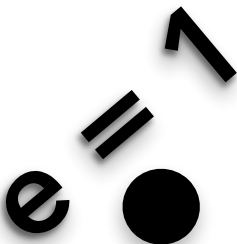

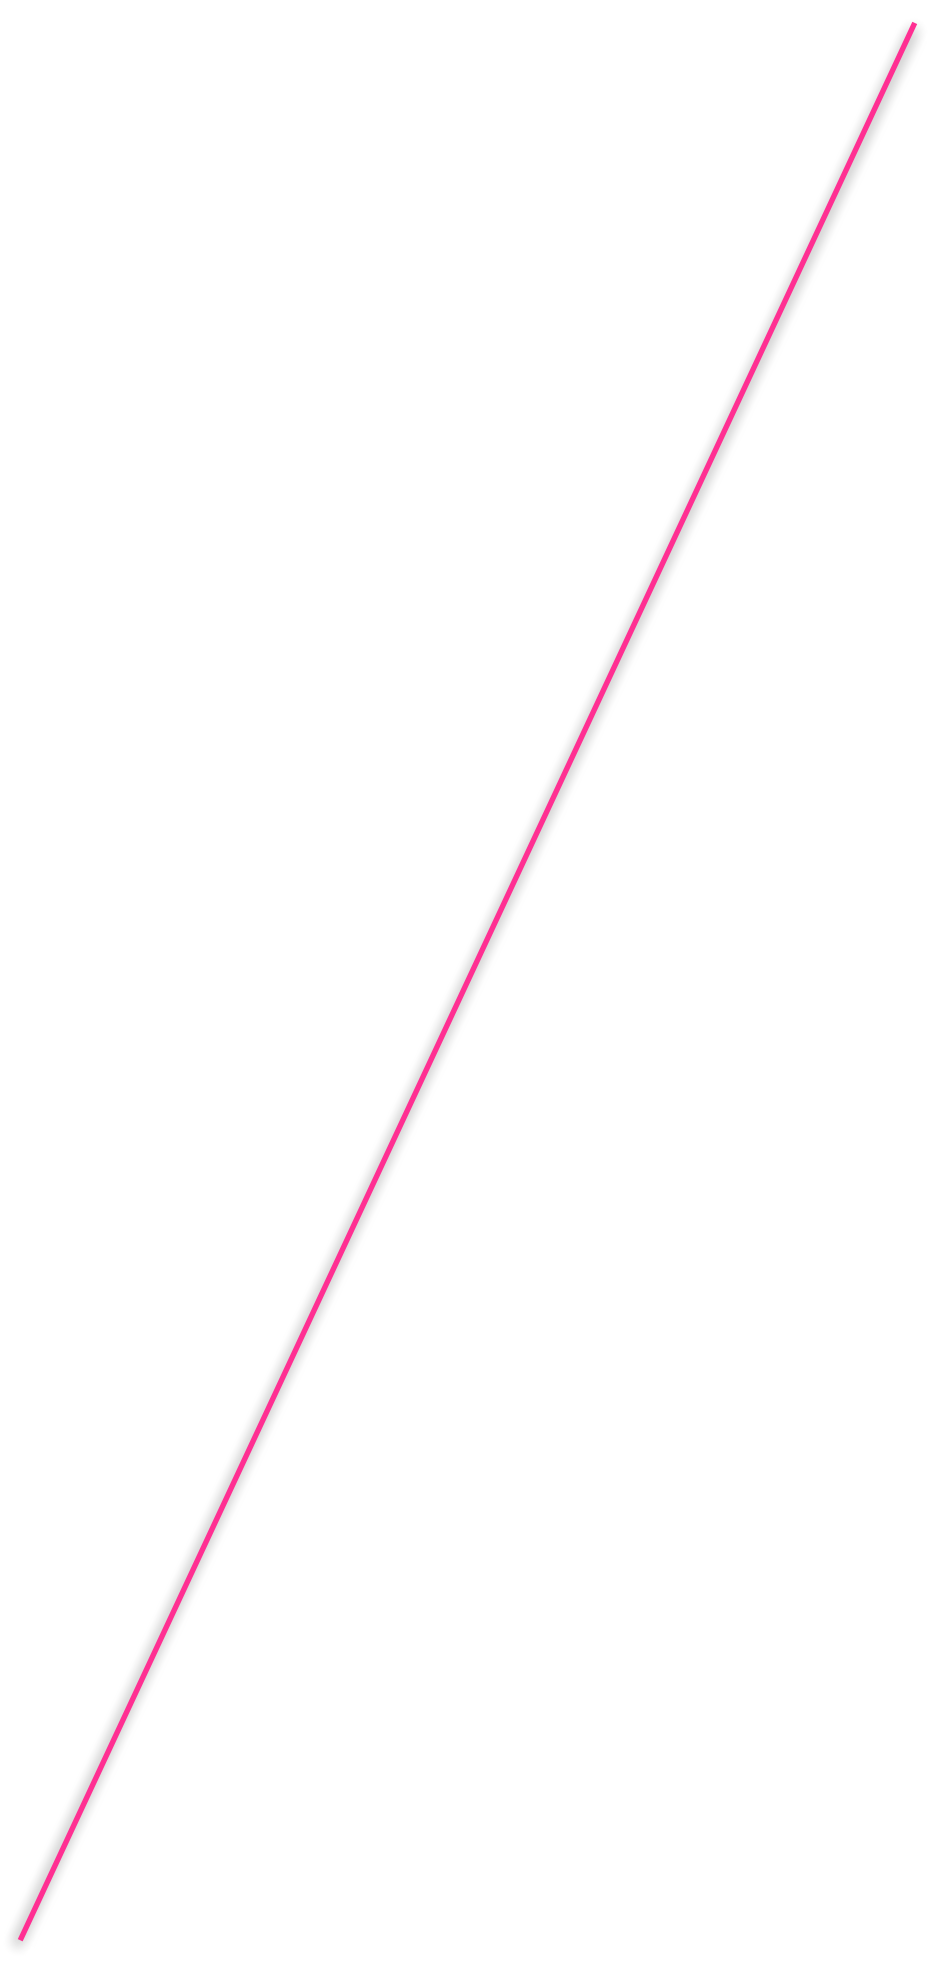

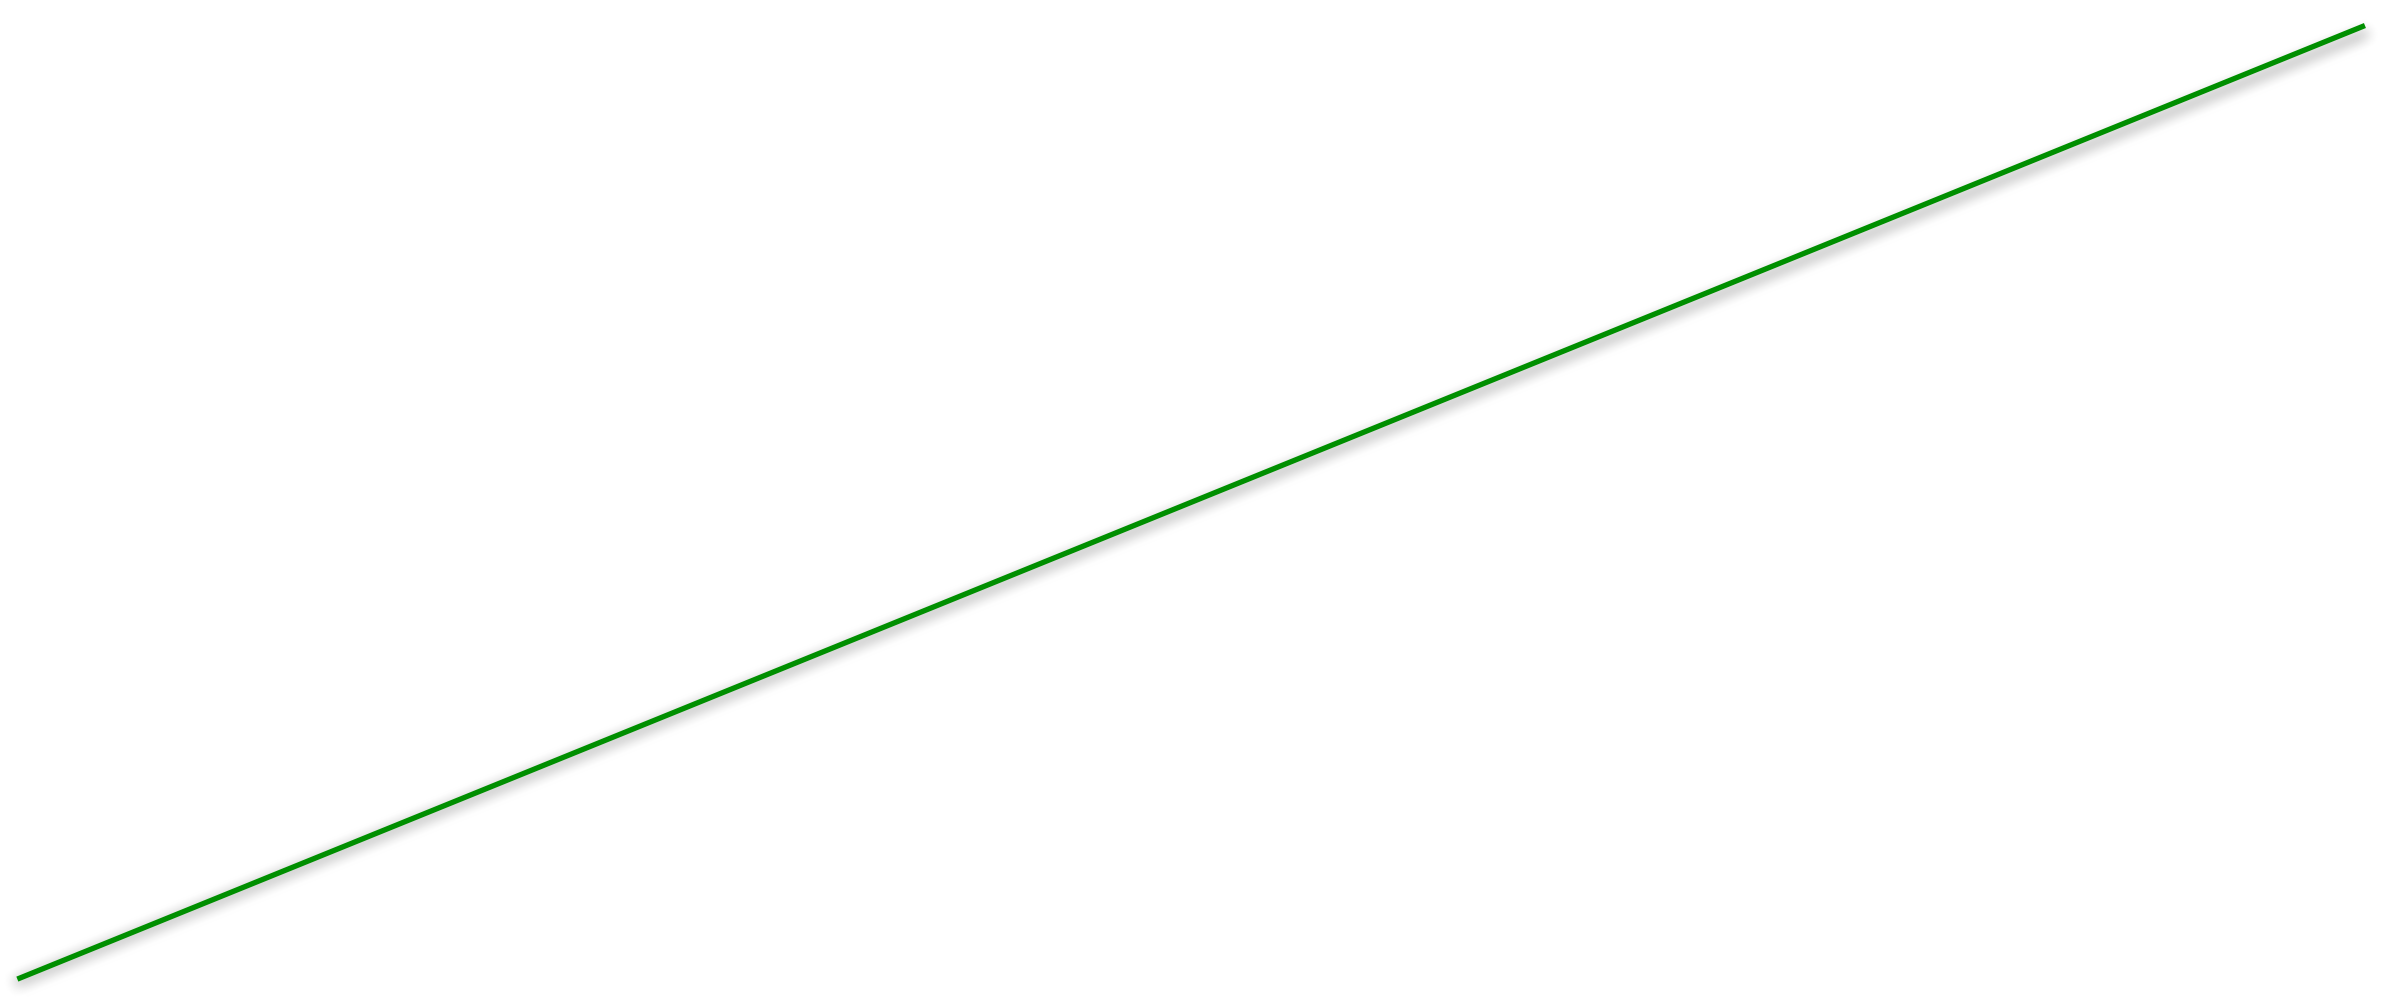

All Supply lines that Cut through the origin are Unit Elastic

e = 1

●

$$e = 1$$

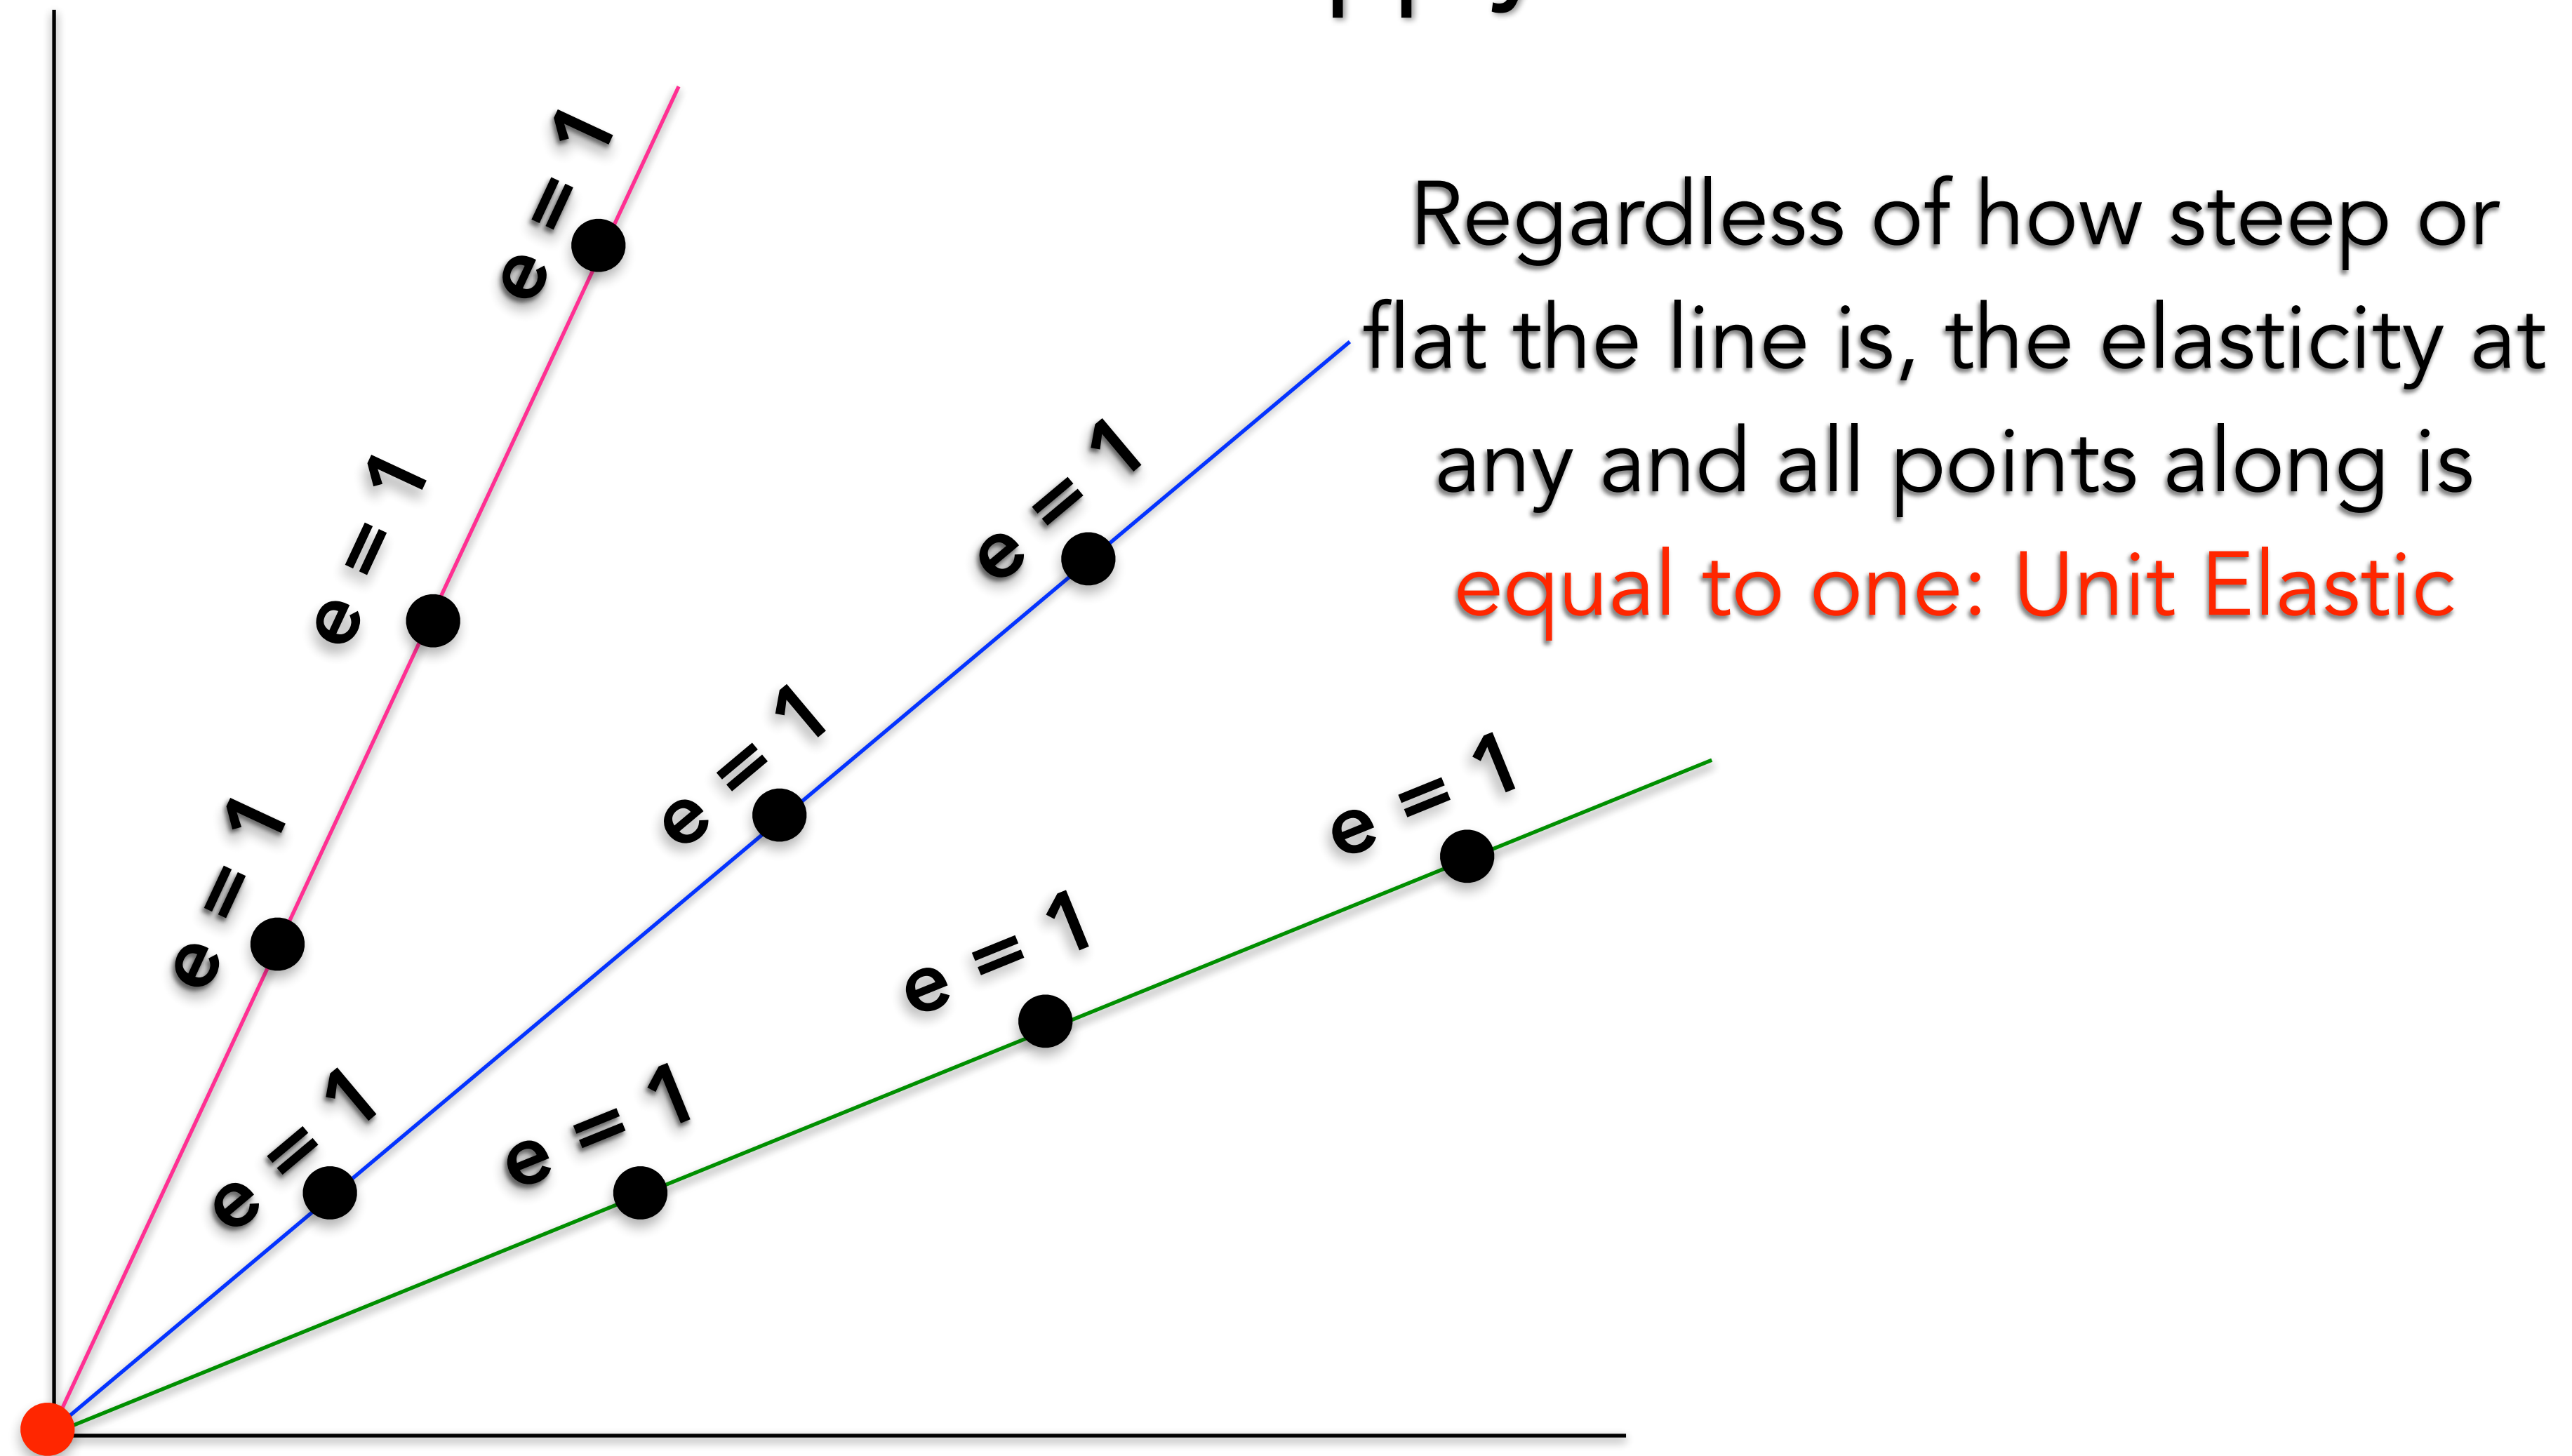

**e = 1**

Regardless of how steep or flat the line is, the elasticity at any and all points along is equal to one: Unit Elastic

# Elasticity **does not change** along a **Unit Elastic Supply**

All Supply lines that Cut through the **origin** are **Unit Elastic**
