

The concept of Plant

Plant is the physical
space where production
takes place: A Farm

The Concept of Plant

An aerial photograph of a large agricultural field. The field is divided into several long, narrow plots by dirt paths. In the center-left, a red tractor is hitched to a green trailer with a black tarp. Several workers are gathered around the trailer; some are standing on the trailer, others are on the ground nearby. The workers are wearing various colors of clothing and hats. The field is covered in green vegetation, likely a crop like cucumbers or melons, with many small yellow flowers visible. The overall scene is a typical day on a farm.
