In the next example, assume that we know how many workers we want to hire and we need to decide

how many units of capital to buy

In the next example, assume that we know how many workers we want to hire and we need to decide how many units of capital to buy

If we use 5 workers

	6	692	980	1200	1384	1550	1692
apital (IV)	5	632	896	1096	1264	1410	1550
	4	564	800	960	1128	1264	1384
