

How will buyers react to a decrease in the price of pork?

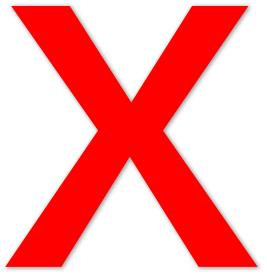

Quantity Demanded increases

At the same time a news report warns of infected pork meat.

We can not use the law of demand: Two variables changed price and tastes

How will buyers react to a decrease in the price of pork?

Quantity Demanded increases

At the same time a news report warns of infected pork meat.

We can not use the law of demand: Two variables changed price and

tastes

Is this sentence correct?

"When the price drops demand increase"
